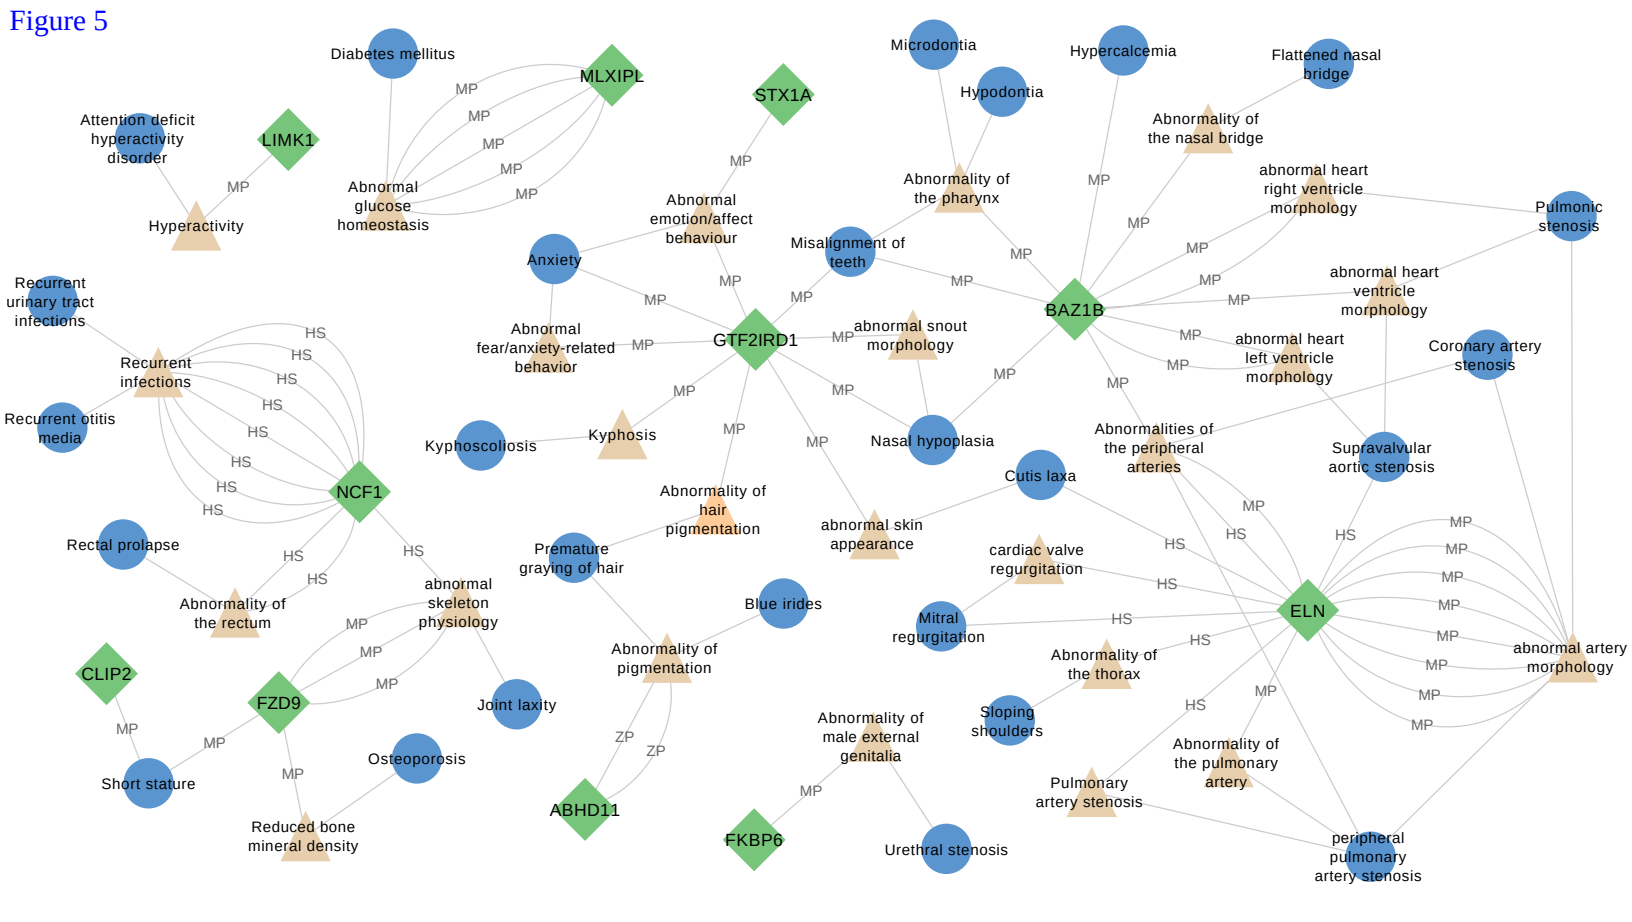
Figure 5



Diabetes mellitus
MLXIPL
Attention deficit hyperactivity disorder
LIMK1
Hyperactivity
Abnormal glucose homeostasis
MP
STX1A
Abnormal emotion/affect behaviour
Anxiety
Abnormal fear/anxiety-related behavior
GTF2IRD1
Microdontia
Hypodontia
Abnormality of the pharynx
Misalignment of teeth
Hypercalcemia
Flattened nasal bridge
Abnormality of the nasal bridge
abnormal heart right ventricle morphology
Pulmonic stenosis
BAZ1B
abnormal heart ventricle morphology
abnormal heart left ventricle morphology
Coronary artery stenosis
abnormal snout morphology
Nasal hypoplasia
Kyphoscoliosis
Kyphosis
Recurrent urinary tract infections
Recurrent infections
Recurrent otitis media
HS
NCF1
Rectal prolapse
Abnormality of the rectum
Premature graying of hair
Abnormality of hair pigmentation
abnormal skin appearance
Cutis laxa
Abnormalities of the peripheral arteries
Supravalvular aortic stenosis
cardiac valve regurgitation
Mitral regurgitation
ELN
abnormal artery morphology
Abnormality of the thorax
Sloping shoulders
Abnormality of the pulmonary artery
Pulmonary artery stenosis
peripheral pulmonary artery stenosis
abnormal skeleton physiology
Blue irides
Abnormality of pigmentation
Joint laxity
CLIP2
FZD9
Short stature
Osteoporosis
Reduced bone mineral density
ABHD11
Abnormality of male external genitalia
FKBP6
Urethral stenosis
